

# Euro Steam

**Euro Steam is designed for  
SIMPLE, SAFE &  
ECONOMICAL operation.**

## The Lightweight Portable Power House

### Tough workhorse...

The Eurosteam has an unbreakable casing made of high density polyethylene to withstand the bumps and knocks of day to day hard work. It has a metal filter that filters both water and dirt, protecting the vacuum group and delivering a high standard of reliability.

### Use...

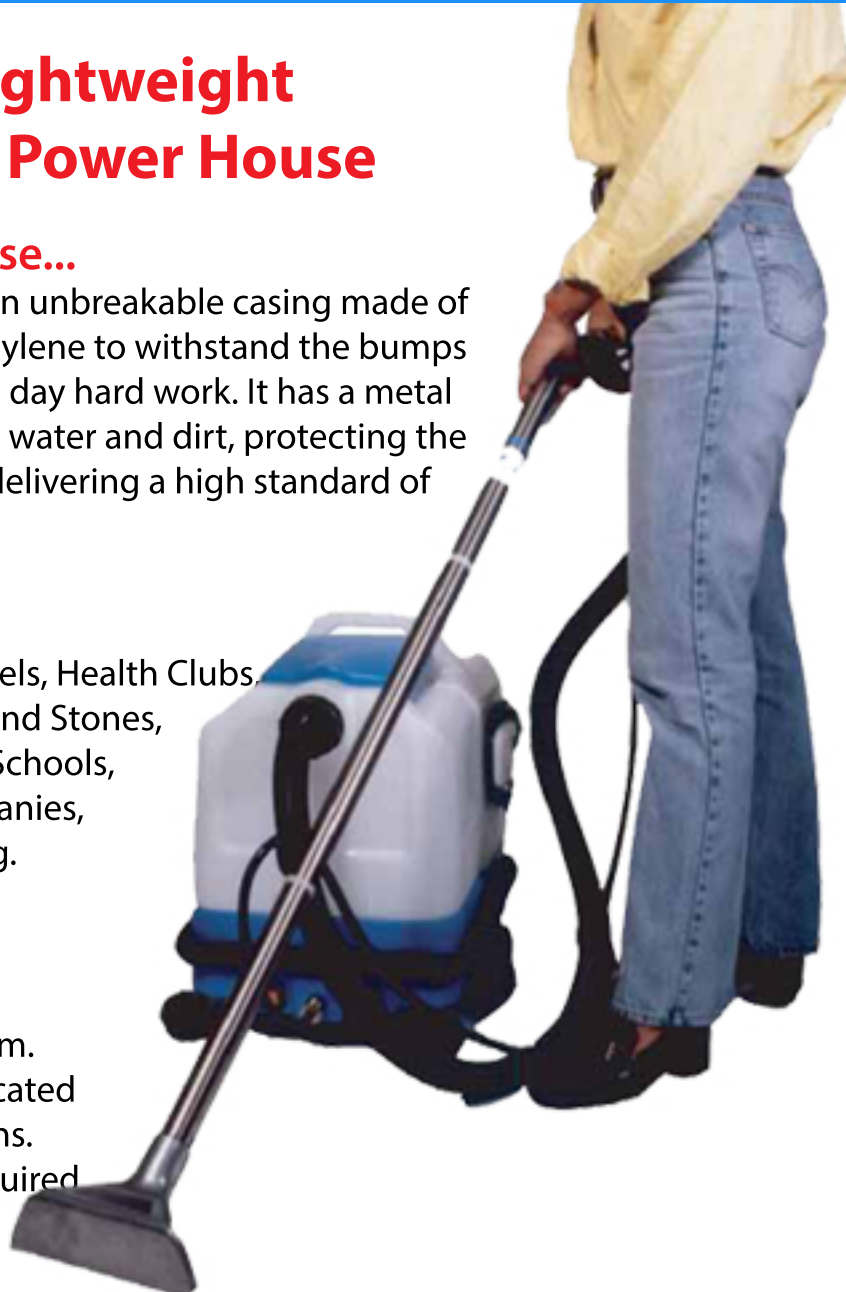

Homes, Hotels & Motels, Health Clubs,  
Restaurants, Shops and Stores,  
Aged care facilities, Schools,  
Cinemas, Hire Companies,  
Car and Bus detailing.

### Easy to use...

Anyone can easily handle The Eurosteam. There are no complicated operating instructions. No special skill is required to achieve excellent results - EVERY TIME!

### Lightweight...

Both compact and lightweight The Euro steam is easy to transport and it's 4 swivel wheels make it even easier to manoeuvre!
